This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

BIENNIAL REPORT.

STATE OF OREGON, TREASURY DEPARTMENT,
SALEM, Oregon,
January 2, 1899.

To Hon. H. R. Kincaid, secretary of state, Salem, Oregon—

DEAR SIR: I have the honor to herewith transmit to you, and through you, to the legislative assembly of the state of Oregon, my official report of the transactions of this department for the biennial term ending December 31, 1898, showing in detail the receipts and disbursements of the department; the balances remaining in the various funds; the financial liabilities of the state; the amount of delinquent taxes, together with the interest thereon, due from the several counties; the deposits made by the foreign insurance and express companies doing business in the state; an abstract of the loans made from the various trust funds, and other matters pertaining to the state finances.

The failure of organization on the part of the legislative assembly of 1897, and the work incident to, and entailed on this department by the special session of 1898, has crowded into the last three months the greater part of the detailed labor of the preceding two years. With as little delay as possible, however, after the close of the special session and under date of November 1, 1898, I advertised for all outstanding state warrants endorsed by me as "Not paid for want of funds" to, and including April 7, 1898, with the exception of warrants drawn upon the swamp land fund. By this means, I called in endorsed warrants to the face amount of $514,909.01, upon which interest was due in the further amount of $37,348.90, thus making provision for the redemption of state obligations to the total amount of $552,257.91. In addition to this I have paid, upon presentation, all warrants drawn on the general fund since the passage of the general appropriation bill by the legislative assembly, under date of October 22, 1898, since which date no warrants have been endorsed. Doing this, however, has necessarily prevented me from calling in all outstanding warrants, there still remaining outstanding liabilities of this character to the amount of $213,984.88, together with accrued

165988

interest thereon from date of endorsement. These warrants, however, were all endorsed between April 7 and October 22, 1898, prior to which former date no interest will be due. A detailed statement of the amount of interest paid on each warrant will be found under the head of disbursements from the general fund.

Permit me to call your attention to the large amount of money now lying idle in the common school fund principal, as well as that of the state university and agricultual college funds. Previous to the past two years the demand for loans from the several trust funds of the state far exceeded their resources. Owing, however, to restored confidence on the part of capitalists, funds heretofore hoarded are now seeking investment at a rate of interest much less than that charged by the state for loans made from its trust funds. This, together with prolific crops and fair prices therefor, has very materially decreased the demand for state loans. It is a noticeable fact that very many of our best loans are now being paid off with money borrowed from local and foreign capitalists at a rate of interest ranging from six to seven per cent. The trust funds of the state are, as a natural result, rapidly accumulating with comparatively little demand for investment. The question of lowering the rate of interest on state loans is a matter, therefore, deserving the careful consideration of the members of the incoming legislative assembly.

There are accumulations in several of the state funds that might be diverted into the general fund and thus become available in the payment of the current expenses of the state government. Prominent among these is that derived from the two per cent. tax on net premiums received by foreign insurance companies doing business in this state. This fund, since the passage in 1895 of an act creating the same, amounts to $48,758.67. Under the provisions of the act referred to, this amount is now turned into the irreducible school fund and becomes a part of the accumulation thereof that is now lying idle in the state treasury. This insurance tax fund is increasing annually and could be used in the payment of the general expenses of the state government and thereby assist in reducing the rate of taxation. The same suggestion might also apply to the university tax fund ($15,919.34), the military tax fund ($1,747.03), the tide land fund ($19,201.57) and the salmon industry fund now amounting to $1,246.08. I would, therefore, respectfully recommend that the state treasurer be authorized to turn these several amounts into the general fund, thus making them available for use in the payment of the current obligations of the state.

Relating to state warrant No. 9372, issued by the secretary of state and endorsed by me, under date of December 11, 1894,

on the Eastern Oregon insane asylum fund for $25,000, the payment of which was enjoined by the courts and referred to by me in my last report, has been finally disposed of and the warrant duly cancelled.

Under an act passed by the legislative assembly of 1893, the state treasurer was instructed to charge interest, at the legal rate, on all state taxes that became delinquent under the general laws of the state. Under these provisions the tax in some of the counties became delinquent in March of each year, while other counties enumerated therein became delinquent sixty days later. This law, passed before the days of railroads and modern mail facilities in this state, is now partial in its provisions and should be so amended as to make all taxes delinquent on a uniform date. The date now fixed by law is earlier, as a rule, than that upon which the sheriffs of the several counties receive the tax roll, making it an impossibility for the county authorities to collect and remit these taxes prior to the date of delinquency. The law should, therefore, be further amended, giving the counties a reasonable time in which to collect and remit the amount due as state taxes before they become delinquent and interest charged thereon. In this connection I might add that a few of the counties pay this interest when demanded, while others not only remain delinquent in its payment but absolutely refuse to pay the same. The law should be so modified as to obviate an unnecessary hardship but at the same time to provide for the payment of the state tax when the same become due and payable.

There still remains outstanding state warrants, payable out of the swamp land fund, to the amount of $34,925.38, exclusive of accrued interest. I have, during the past two years, redeemed $7,138.36 of this class of warrants, together with the interest due thereon. The sales of swamp lands are exceedingly light and the redemption of the warrants is correspondingly retarded.

In closing my eight years' incumbency of this office I cannot otherwise than acknowledge, with grateful thanks, the extreme courtesy I have met with on every hand, not only from the officers and employés of the state, but from the general public. My official connections have been of the most pleasing character and I can but feel under deep obligations to the citizens of the entire state for the confidence reposed in me. Trusting I may have discharged my official duties in a manner at least acceptable to the people of this commonwealth, I remain,

Very respectfully, your obedient servant,

PHIL. METSCHAN,
State treasurer.
